

## OBJECTIVE

Find pairs of identical, matching cards.

## SET UP

- 1 Choose your game level:
  - **Beginner:** Use 20 tiles (all animals OR all people)
  - **Advanced:** Use all 40 tiles (mix animals and people)
- 2 Shuffle all tiles face-down.
- 3 Arrange tiles in a grid pattern.

## HOW TO PLAY

- 1 Pick a player to start. On your turn:
  - Flip over any two tiles, one at a time.
  - **If they match:** Collect the pair and take another turn.
  - **If they don't match:** Turn both tiles face-down in the exact same positions. Your turn ends.
- 2 Play continues to the left.
- 3 Keep searching until all pairs are found.

## GAME END

Count your pairs! The player with the most matching pairs wins the game.

## HELPFUL TIPS

- Perfect for solo play too! Challenge yourself to find all the pairs.
- Watch carefully during other players' turns. Remembering tile locations is key!
- No reading required - matching pictures makes this game accessible for all ages.

## BONUS GAME VARIATIONS

### Emotion Copycat

When you find a match, make the facial expression shown on the tile. For animal cards, make their sound too! For example, smile & ROAR like a proud lion.

### Storytime

After finding a match, create a short story about why the animal or person feels that way. For example, "The parrot is angry because..."

### Share A Feeling

When you find a match, talk about a time you felt the same emotion and what made you feel that way.

### Animal-People Match

To start, use only 10 animal tiles and 10 people tiles. In this variation, match animals with people showing the same emotion. *Hint:* Look for matching background colors to help identify pairs.
